- [Read abt the courses selected, Read abt Dr. Samira gayekheloo, Read abt ASU](#)

What do they do? How much do they earn? Will that amount suffice? How many employees and explain both business in detail

My Father has a CNC Engraving Business which includes
Whereas my Mother has a PVC Business

They have a combined annual income of 21 lakh rupees.

Along with the income they have savings of 56 lakhs (68,000 \$) and assets worth 3 crores (3,60,000 \$).
I have also secured a loan from HDFC worth 50 lakhs (60,000 \$) and scholarship from ASU of 10,000 \$

Will you do job in USA or return to India ?

After completing my Masters, I intend to return to India. I believe that this degree will significantly enhance my understanding and knowledge in the field of Computer Science, providing me with a competitive advantage in the Indian job market. I am eager to contribute my skills and expertise to the development of the tech industry in India

Why this course not in India ?

The specific electives that align with my interests are offered by only a few universities here. Arizona State University will provide advanced knowledge and offer better hands-on experience in the field. Moreover, Dr. Samira Gayekheloo's research aligns perfectly with my interests, and I would be honored to work under her guidance.

What will you do after graduating?

After graduating, my plan is to return to India and apply the knowledge and skills I have acquired during my Master's program to gain real-world experience. I aspire to secure a role as a data scientist in a reputable organization. In the future, I aim to explore my passion for entrepreneurship and establish my own data science venture.

How this masters will help you ?

This Master's degree will help me deepen my knowledge in data science, my field of interest. I will have the opportunity to work with research-oriented and world-class faculty, allowing me to expand my understanding and skills. The program will provide hands-on experience, enabling me to apply theoretical concepts to practical scenarios. Additionally, obtaining a degree from a renowned institution will give me a competitive advantage in the Indian job market.

Why did you choose the course you are applying for?

I am really passionate about Computer Science. During my undergraduate in Information Technology, I had the opportunity to explore various domains of Computer Science, including Data Science, Machine Learning, Cybersecurity, and Cloud Computing. During this I developed strong interest in Data Science. I published research papers and worked on various projects in this field. To enhance my understanding and gain practical experience, I made the decision to pursue a Master's degree in Computer Science.

What are your plans if your student visa is not approved?

I really wish to study in the United States, but I will respect the decision of the embassy, and then reapply. This time I will try to do better than I did today.

Why should I approve your VISA?

Officer I have an admit from a prestigious university with a scholarship. I also have funding in place for the entire duration of course and the program that I am going for will help me gain expertise in the field and get good opportunities once I return to India after my education.

What is the name of the college or university you want to study in and why did you choose it?

I chose to study at Arizona State University due to its flexible curriculum, offering a diverse range of electives such as Data Science, Machine Learning, Cloud Computing, and Cybersecurity. Additionally, the university has some of the best faculty members in these fields. I am particularly interested in conducting research under the guidance of Dr. Samira Gayekheloo, an expert in the areas of Data Science and Machine Learning. I have even enrolled in her Data Mining course as it aligns with my field of interest and to deepen my knowledge. Furthermore, Arizona State University holds a high rank among universities, making it an ideal choice for my academic pursuits.

Why are you going to the US?

I want to study in the US because it has some of the best universities in the world and is a popular study destination for higher education. American universities offer a flexible education system that allows students to choose subjects and professors that align with their interests and goals. Additionally, these institutions are renowned for their top-ranking programs. Obtaining a degree from one of these world-class institutions will provide me with a competitive edge in the Indian job market. By studying in the US, I would gain a global perspective and have the opportunity to engage with a diverse community of students from around the world.

Why don't you want to study in your home country?

Although my country is reputed globally for education it cannot be compared to the US education system. US has some of the best universities in the world and is a popular study destination for higher education. American universities offer a flexible education system that allows students to choose subjects and professors that align with their interests and goals. Additionally, these institutions are renowned for their top-ranking programs. Obtaining a degree from one of these world-class institutions will provide me with a competitive edge in the Indian job market. By studying in the US, I would gain a global perspective and have the opportunity to engage with a diverse community of students from around the world.

Which university? Which course are you going for?

I will be attending Arizona State University to pursue a Master's degree in Computer Science.

How many Admits and Rejects have you received?

I have received Admits from 5 universities and reject from 2 universities.

Admit : Arizona State University
North Carolina State University
Northeastern
SUNY Buffalo
University of Texas at Dallas

Reject : Purdue University
Texas A&M University

What is your GPA, GRE and TOEFL score?

I earned an undergraduate GPA of 9.81. My GRE score is 317 and TOEFL score is 102.

Who is sponsoring you?

My parents will be sponsoring my education and cost of living in the US.

Why have you decided to go to school now, instead of starting a career?

I have decided to pursue further education because the Masters course I have chosen will greatly enhance my knowledge in the field of Computer Science. Upon completion, I will have acquired in-depth knowledge and gained valuable hands-on experience. Obtaining a Masters degree from a prestigious institution like Arizona State University will provide me with a global outlook and make me stand out when applying for jobs, particularly in India. The recognition and reputation associated with ASU will boost my career prospects in the field of Computer Science.

Which schools rejected you and why?

I was rejected from Texas A&M and Purdue Univ. My rejection was due to the fact that they had very limited seats and they didn't find me a good fit for their program.
